SUSTAINABLE

THE PRODUCT

Nutrient-Rich Power for Thriving Crops

AgriBoost is a premium organic fertiliser enriched with natural nutrients that improve soil health, enhance microbial activity and promote strong growth. Perfect for all crops and farming systems seeking sustainable, high-performance fertilisation.

KEY BENEFITS

Why Farmers Choose AgriBoost

Nutrient Rich

Balanced blend of organic carbon, nitrogen, phosphorus and potassium for complete crop nutrition.

Improves Soil Health

Enriches soil with organic matter and restores natural fertility for long-term productivity.

Boosts Growth

Enhances microbial activity and promotes strong root and plant development for higher yields.

Sustainable Agriculture

100% organic formula supports regenerative farming and reduces chemical dependency.

Natural Power. Balanced Nutrition.

Organic Carbon

Improves soil structure

Nitrogen

Supports lush green growth

Phosphorus

Promotes root development

Potassium

Enhances crop vigor and yield

IDEAL FOR ALL CROPS

Suitable for Every Farming System

AgriBoost works effectively across a wide range of crops and agricultural practices. From field crops to horticultural and plantation crops, AgriBoost delivers consistent, reliable nutrition.

Ideal For All Crops

Field Crops

Horticultural Crops

Plantation Crops

Fruits

Vegetables

All Crops

APPLICATION GUIDE

Recommended Dosage

Adjust dosage based on soil type and crop requirement. Contact our agronomy team for personalized guidance on optimal application rates.

CROP TYPE	APPLICATION RATE
Field Crops	250 to 500 kg / acre
Horticultural Crops	500 to 1000 kg / acre
Plantation Crops	1 to 2 kg / plant

Nursery / Pot Culture

250 to 500 g / plant

ⓘ Dosage may vary depending on soil type and crop requirement. Contact our team for tailored guidance.
